User Management

Overview

[usermanagement.png](#)

Image not found or type unknown

Management Panel lets you view and manage the users. This includes creating new users, resetting user passwords, updating user details and suspending and deleting users. For your information our system will never removes users and their data from database just removes it from your user list.

- To view and manage current registered users use "User Manager" icon.
- To create new user use "Create New User" icon

Trash icon is used to remove users from the list. Our system does not remove users from database it just hides it from the user list. It is not possible to recover users when deleted.

Eye Icon is used to suspend user accounts. When suspended user will not able to login learning management system. You can suspend and reactivate user accounts by clicking the eye icon. Also suspended users will be displayed on the user list.

Edit Icon is used to edit user details. You can change user info and password on edit user page.

Creating New User
